

Your trucks and trailers need protection

One of the trucking industry's biggest concerns is theft.

- 85% of all business security losses are attributed to the theft or loss of product in transit*
- Cargo theft is responsible for more than \$10 billion in merchandise losses each year**

But there's something you can do about it. Get LoJack. LoJack provides total protection when you equip both your tractor and trailer. Using LoJack, police can help get your truck or trailer back faster, increasing the likelihood of the cargo being recovered.

For trucks

LoJack protects your fleet of trucks and your bottom line. With LoJack you can reduce your risk of lost revenue and productivity caused by theft.

- LoJack patented technology operates with 12V or 24V battery source
- Also contains an internal back-up battery
- Can be installed on: tractor trailers, straight trucks/box trucks, vans, service trucks, and commercial auto fleets

For trailers

LoJack for Trailers is a stolen vehicle recovery system specifically designed for untethered trailers. It protects your trailer and can help minimize theft-related issues like missed deadlines, loss of stolen cargo and replacement orders.

- Self-contained with long-life battery – no external power source required
- Can be installed on approved trailer models, including: box trailers, flatbed trailers, lowboy trailers, and dump trailers
- Special product available for refrigerated trailer units

Get it back with LoJack

- LoJack is the only stolen vehicle recovery system operated by the police
- LoJack has a 90% recovery rate nationwide
- No monthly fees or installation costs
- Many recoveries within hours
- Covert installation – no visible antennas for thieves to disable

Reduce worry. Protect your company's assets. If your truck, tractor or trailer is ever stolen, get it back with LoJack.

LoJack is a proud member and sponsor of:

LoJack for cargo
